The WCADVSA engages communities, organizations, and systems across Wyoming in the work to end domestic violence, sexual assault, and stalking through prevention and intervention strategies. We help to build the capacity of our member programs, partners, and allies to ensure safe, compassionate, inclusive, and accessible services to survivors.

We do this through training, advocacy, and social change work. The WCADVSA is engaged in a variety of statewide collaborative initiatives designed to support victims, analyze and address trends and service barriers, increase the capacity of direct service providers to help victims with self-sufficiency goals, and provide coordinated access to services throughout the state.

This report highlights the work that exemplifies how the WCADVSA carries out our mission.
